**CHARLES RIVER ASSOCIATES (CRA) REPORTS
FINANCIAL RESULTS FOR THE SECOND QUARTER OF 2022**

*Broad-based Contributions Drive Record Performance
Company Reaffirms Revenue Guidance and Raises Profit Guidance for Full-year Fiscal 2022*

BOSTON, August 4, 2022 – Charles River Associates (NASDAQ: CRAI), a worldwide leader in providing economic, financial and management consulting services, today announced financial results for the fiscal second quarter ended July 2, 2022.

“The hard work of my colleagues drove CRA’s revenue to \$149.1 million, which represents the highest quarterly revenue in the company’s history,” said Paul Maleh, CRA’s President and Chief Executive Officer. “Our performance was broad based, with four practices—Antitrust & Competition Economics, Energy, Intellectual Property, Labor & Employment—delivering double-digit revenue growth year over year. We continue to effectively manage the business, mitigating the pressures of cost inflation and converting CRA’s top-line performance into strong profitability. For the quarter, CRA set new quarterly records for EBITDA, net income and earnings per diluted share.”

Highlights for Second Quarter Fiscal 2022

- Revenue grew 0.6% year over year to \$149.1 million.
- Utilization was 77%, and quarter-end headcount increased 3.6% year over year.
- Net income increased 0.7% year over year to \$11.6 million, or 7.8% of revenue, compared with \$11.6 million, or 7.8% of revenue, in the second quarter of fiscal 2021; non-GAAP net income increased 0.9% year over year to \$11.7 million, or 7.8% of revenue, compared with \$11.6 million, or 7.8% of revenue, in the second quarter of fiscal 2021.
- Earnings per diluted share increased 2.6% year over year to \$1.57 from \$1.53 in the second quarter of fiscal 2021; non-GAAP earnings per diluted share increased 3.3% year over year to \$1.58 from \$1.53 in the second quarter of fiscal 2021.
- Non-GAAP EBITDA increased 3.0% to \$19.8 million, or 13.3% of revenue, compared with \$19.2 million, or 13.0% of revenue, in the second quarter of fiscal 2021.
- On a constant currency basis relative to the second quarter of fiscal 2021, revenue, GAAP net income, and earnings per diluted share would have been higher by \$3.0 million, \$0.3 million, and \$0.03 per diluted share, respectively. Non-GAAP net income, earnings per diluted share, and EBITDA would have been higher by \$0.2 million, \$0.03 per diluted share, and \$0.3 million, respectively.
- CRA returned \$20.0 million of capital to its shareholders, consisting of \$2.3 million of dividend payments and \$17.7 million for share repurchases of approximately 211,000 shares.

Management Commentary and Financial Guidance

“Through the first two quarters of fiscal 2022, on a constant currency basis relative to fiscal 2021, we generated total revenue of \$301.5 million and non-GAAP EBITDA of \$39.1 million, achieving a margin of 13.0%,” continued Maleh. “Reflecting the continued strength and quality of our business, we are reaffirming our revenue guidance and raising our EBITDA guidance. For full-year fiscal 2022, on a constant currency basis relative to fiscal 2021, we expect revenue in the range of \$585 million to \$605 million, and non-GAAP EBITDA margin in the range of 11.3% to 12.0%. This new profit guidance compares with a prior non-GAAP EBITDA margin range of 10.8% to 11.5%. While we are pleased with CRA’s performance through the first half of the year, we remain mindful that uncertainties around global economic, business, health, and political conditions can affect our business.”

CRA does not provide reconciliations of its annual non-GAAP EBITDA margin guidance to GAAP net income margin because the Company is unable to estimate with reasonable certainty unusual gains or charges, foreign currency exchange rates, and the resulting effect of these items, and of equity awards, on CRA’s taxes without unreasonable effort. These items are uncertain, depend on various

factors, and may have a material effect on CRA's results computed in accordance with GAAP. A reconciliation between the historical GAAP and non-GAAP financial measures presented in this release is provided in the financial tables at the end of this release.

Quarterly Dividend

On August 4, 2022, CRA's Board of Directors announced a quarterly cash dividend of \$0.31 per common share, payable on September 9, 2022 to shareholders of record as of August 30, 2022. CRA expects to continue paying quarterly dividends, the declaration, timing and amounts of which remain subject to the discretion of CRA's Board of Directors.

NON-GAAP FINANCIAL MEASURES

In this release, CRA has supplemented the presentation of its financial results calculated in accordance with U.S. generally accepted accounting principles or "GAAP" with the following financial measures that are not calculated in accordance with GAAP: non-GAAP net income, non-GAAP net income per share and non-GAAP EBITDA. CRA believes that the non-GAAP financial measures described in this press release are important to management and investors because these measures supplement the understanding of CRA's ongoing operating results and financial condition. In addition, these non-GAAP measures are used by CRA in its budgeting process, and the non-GAAP adjustments are made to the performance measures for some of CRA's performance-based compensation.

CRA defines non-GAAP EBITDA as net income before interest expense (net), income taxes, and depreciation and amortization further adjusted for the impact of certain items that we do not consider indicative of our core operating performance, such as non-cash amounts relating to valuation changes in contingent consideration, acquisition-related costs, and related tax effects. Non-GAAP net income and non-GAAP net income per share also exclude non-cash amounts relating to valuation changes in contingent consideration, acquisition-related costs, and related tax effects. This release also presents certain current fiscal period financial measures on a "constant currency" basis in order to isolate the effect that foreign currency exchange rate fluctuations can have on CRA's financial results. These constant currency measures are determined by recalculating the current fiscal period local currency financial measure using the specified corresponding prior fiscal period's foreign exchange rates. On a constant currency basis for the fiscal year-to-date period ended July 2, 2022 relative to the fiscal year-to-date period ended July 3, 2021, revenue and EBITDA would have been higher by \$4.0 million and \$0.4 million, respectively.

All of the non-GAAP financial measures referred to above should be considered in conjunction with, and not as a substitute for, the GAAP financial information presented in this release. EBITDA and the financial measures identified in this release as "non-GAAP" are reconciled to their GAAP comparable measures in the financial tables appended to the end of this press release. In evaluating these non-GAAP financial measures, note that the non-GAAP financial measures used by CRA may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies.

SAFE HARBOR STATEMENT

Statements in this press release concerning our future business, operating results and financial condition, including those concerning guidance on future revenue and non-GAAP EBITDA margin, the impact of exchange rate fluctuations on our financial results, our expectations regarding continued growth, our expectations regarding the payment of any future quarterly dividends and the level and extent of any purchases under our share repurchase program, and statements using the terms "outlook," "expect," or similar expressions, are "forward-looking" statements as defined in Section 21 of the Exchange Act. These statements are based upon our current expectations and various underlying assumptions. Although we believe there is a reasonable basis for these statements and

assumptions, and these statements are expressed in good faith, these statements are subject to a number of additional factors and uncertainties. Our actual revenue and non-GAAP EBITDA margin in fiscal 2022 on a constant currency basis relative to fiscal 2021 could differ materially from the guidance presented herein, and our actual performance and results may differ materially from the performance and results contained in or implied by the forward-looking statements made herein, due to many important factors. These factors include, but are not limited to, the possibility that the demand for our services may decline as a result of changes in general and industry specific economic conditions; the timing of engagements for our services; the effects of competitive services and pricing; our ability to attract and retain key employee or non-employee experts; the inability to integrate and utilize existing consultants and personnel; the decline or reduction in project work or activity; global economic conditions including less stable political and economic environments; the impact of the COVID-19 pandemic; foreign currency exchange rate fluctuations; unanticipated expenses and liabilities; risks inherent in international operations; changes in tax law or accounting standards, rules, and regulations; our ability to collect on forgivable loans should any become due; and professional and other legal liability or settlements. Additional risks and uncertainties are discussed in our periodic filings with the Securities and Exchange Commission under the heading "Risk Factors." The inclusion of such forward-looking information should not be regarded as our representation that the future events, plans, or expectations contemplated will be achieved. Except as may be required by law, we undertake no obligation to update any forward-looking statements after the date of this press release, and we do not intend to do so.

NON-GAAP FINANCIAL MEASURES

In these remarks, CRA has supplemented the presentation of its financial results calculated in accordance with U.S. generally accepted accounting principles or “GAAP” with the following financial measures that were not calculated in accordance with GAAP: non-GAAP net income, non-GAAP net income per share, non-GAAP EBITDA, non-GAAP income from operations, non-GAAP provision for income taxes, SG&A expenses excluding commissions and adjusted net cash flows from operations. CRA believes that these non-GAAP financial measures are important to management and investors because these measures supplement the understanding of CRA’s ongoing operating results, financial condition and cash flows. Non-GAAP adjusted net cash flows from operations is used by management to assess CRA’s ability to fund items such as the acquisition of talent, office expansions, debt repayment and distributions to shareholders. In addition, non-GAAP net income and non-GAAP EBITDA are used by CRA in its budgeting process, and the non-GAAP adjustments described below are made to the performance measures for some of CRA’s performance-based compensation.

CRA defines non-GAAP EBITDA as net income before interest expense (net), income taxes, and depreciation and amortization further adjusted for the impact of certain items that it does not consider indicative of its core operating performance, such as non-cash amounts relating to valuation changes in contingent consideration, acquisition-related costs, and related tax effects. Non-GAAP net income, non-GAAP income from operations and non-GAAP provision for income taxes also exclude non-cash amounts relating to valuation changes in contingent consideration, acquisition-related costs, and related tax effects. The adjustments made to non-GAAP adjusted net cash flows from operations add back forgivable loan issuances, net of repayments, along with other non-recurring cash items. These remarks also present certain current fiscal period financial measures on a “constant currency” basis in order to isolate the effect that foreign currency exchange rate fluctuations can have on CRA’s financial results. These constant currency measures are determined by recalculating the current fiscal period local currency financial measure using the specified corresponding prior fiscal period’s foreign exchange rates.

All of the non-GAAP financial measures referred to above should be considered in conjunction with, and not as a substitute for, the GAAP financial information presented in these remarks. EBITDA and the financial measures identified in these remarks as “non-GAAP” are reconciled to their GAAP comparable measures either in these remarks or in the attached financial tables. In evaluating these non-GAAP financial measures, note that the non-GAAP financial measures used by CRA may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies.
